

**DOES
EXACTLY
WHAT IT
SAYS ON
THE TIN™**

**Ronseal Promise, if you do exactly what it says on the tin,
this product will do exactly what it says on the tin.**

Ronseal No Rust is a high quality, tough metal finish that can be applied directly to rust, is easy to use and provides long lasting protection to metal surfaces.

- Contains anti-rust agent
- Direct to rust
- Stops existing rust
- Self priming

USAGE AREAS

- Ideal for metal gates, railings, down pipes and garden furniture
- For use on bare, rusty or previously painted metal
- On non-ferrous and galvanised metal use a suitable primer

PREPARATION

- Remove any loose rust or loose paint with a wire brush or abrasive paper
- Painted surfaces should be lightly sanded prior to decoration
- Surfaces should be wiped down with white spirit to remove dust, dirt and grease
- Use a suitable primer on bare non-ferrous metal
- Avoid inhalation of dust, wear a suitable face mask when sanding.

APPLICATION

- Stir lightly before use
- Apply liberally to the surface with a brush
- On previously painted surfaces in sound condition, 1 coat should be sufficient
- On bare metal use 2-3 coats

COVERAGE AND DRY TIMES

- 4-5 m² per litre
 - Touch dry in 45 minutes
 - Overcoat within 8 hours or after 14 days
- Note: Dependent on weather conditions and the thickness of coat applied

CLEAN UP

- Clean brushes with a proprietary paint brush cleaner
- Remove as much product as possible prior to cleaning

RONSEAL NO RUST HEALTH AND SAFETY

• Flammable. • Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. • Repeated exposure may cause skin dryness and cracking. • Contains Cobalt Carboxylate; EMKO. May produce an allergic reaction. • Keep out of reach of children. • Keep away from sources of ignition - No smoking. • Avoid contact with skin and eyes. • In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. • After contact with skin, wash immediately with water and soap. • Do not empty into drains. • Wear suitable gloves. • If swallowed, seek medical advice immediately and show this container label. • Use only in well ventilated areas. • Avoid release to the environment. Refer to special instructions/Safety Data Sheets. • Special precautions should be taken during surface preparation of pre-1960's paint surfaces over wood and metal as they may contain harmful lead.

WISE PRECAUTIONS

• Always read the instructions carefully before use. • Do not empty product into drains or watercourses. • Some local authorities have special facilities for disposal or dispensing of waste coatings. • To avoid the risk of spilling always store and transport in a secure and upright position.
