

- Ensure surface is free from grease, mould, and any other contaminants.
- Shake well with cap on and depress nib several times to achieve a paint flow.
- On vertical surfaces, paint from the bottom and work upwards tilting the pen up at an angle.
- If paint colour thins, wipe nib and depress several times to encourage paint flow.
- The durability of the nib will decrease when used directly onto grout.
- Remove excess paint from tiles immediately.
- Keep surface dry for 24 hours after application.
- Do not clean with concentrated or abrasive cleaners.
- Keep capped and horizontal when not in use.
