

DOES
EXACTLY
WHAT IT
SAYS ON
THE TIN™

Ronseal Promise, if you do exactly what it says on the tin,
this product will do exactly what it says on the tin.

QUICK DRYING

- 20 minutes touch dry
- Recoat in 1 hour

COATS

2 coats are normally enough,
untreated wood may need 3

LOW ODOUR

COVERAGE

750ml will normally treat
3 door sides with 2 coats

CLEANING

Pad washes out in water

Ronseal Perfect Finish Varnish is the quickest and easiest way to finish and protect interior wood. It includes the unique Ronseal Perfect Finish Pad which will help you to achieve perfect results with no brushmarks. Ideal for either large flat surfaces or small intricate areas, the unique pad moulds itself to the wood to help you to achieve a beautiful smooth finish.

PREPARATION Ensure all surfaces are free from wax, grease and oil by wiping with a cloth dampened with white spirit. Barewood: Sand smooth with fine sandpaper. Do not use steel wool. Remove dust with a damp cloth. Varnished wood: Remove unsound varnish. Sand well with medium grade sandpaper to a uniform appearance and clean with white spirit. Allow to dry thoroughly.

APPLICATION Full instructions on how to assemble the Ronseal Perfect Finish Pad in 2 easy steps, and tips for getting the best out of your pad can be found on the inside lid. For best results stir thoroughly before and during use. Lower the foam pad evenly into the varnish ensuring the black foam is not covered. Use the side of the tub to remove any excess varnish as overloading the pad will effect the end result. Apply even pressure to the pad as you pull/push it along the wooden surface. Use the angled edges to reach into small or tricky areas eg door mouldings.

CLEAN UP Either between coats or if you wish to keep and reuse the unique Ronseal Perfect Finish pad simply wash it out in detergent and water. Remove as much product as possible from the pad before washing. Allow pad to dry with flock facing upwards.

RONSEAL PERFECT FINISH VARNISH

Keep out of reach of children. Avoid contact with skin and eyes. After contact with skin, wash immediately with plenty of water. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Use only in well ventilated areas. To avoid the risk of spillage, always store and transport in a secure and upright position. Protect from frost - do not apply below 10°C or in high humidity.

EU limit value for this product (eat A/e: 150g/l(2007)/130g/l 2010).
This product contains max 75g/l VOC
