

DOES
EXACTLY
WHAT IT
SAYS ON
THE TIN™

Ronseal Promise, if you do exactly what it says on the tin,
this product will do exactly what it says on the tin.

- Quick and easy way to a limed wax finish
- Simply brush on and buff off
- Contains natural waxes, which feed and enrich wood
- Limes and protects interior wood and furniture
- Highlights the natural beauty of the wood

Ronseal Liming Wax is the quick and easy way to a natural limed wax finish. It limes and protects interior wood and furniture. Containing a blend of natural waxes, including beeswax, it feeds and enriches the wood enhancing the natural beauty of the wood grain. For best results use on open grained and darker woods eg Oak.

USAGE AREAS

Suitable for most interior wood including furniture, shelving, panelling and doors.

PREPARATION

1. Remove all previous coatings and sand thoroughly.
2. Wipe over with a damp cloth to remove dust.
3. Test for colour on a small area before application.

APPLICATION

1. Simply stir container well and brush the product in the direction of the grain.
2. Leave for 10-20 minutes and then buff off with a soft cloth in the direction of the grain.

Repeat steps 1 and 2 for the 2nd coat. Additional coats may be applied to increase the limed effect. If the wax is left on for longer than 20 minutes before being buffed off, buffing will require more effort and the finish will be glossier.

DRYING TIMES

Allow 10-20 minutes for each coat to dry and 1 hour between coats.

COVERAGE

750ml will normally treat 2 door sides with 2 coats (approx 15m²).

LIMED FINISH & PROTECTION FOR
