

DOES
EXACTLY
WHAT IT
SAYS ON
THE TIN*

Ronseal Promise, if you do exactly what it says on the tin,
this product will do exactly what it says on the tin.

Ronseal Quick Drying Radiator Spray Paint is a heat resistant, tough enamel finish for radiators, providing long lasting protection in just 15 minutes.

USAGE AREAS • Bare, primed and previously painted radiators.

PREPARATION • Radiators should be switched off and cold.
• Surfaces should be clean, dry and free from dust, dirt, grease or loose material. • Lightly abrade the surface and remove dust.*
• Lay paper and mask surrounding areas to avoid over spray or where possible remove the item and spray outdoors.

APPLICATION • Spray at room temperature (21°C) • Remove cap as instructed on lid. • Shake well, until ball rattles and afterwards for 2 minutes. • Test and practice on a small area first. • When spraying periodically stop and shake the can.
• Spray 20-30cm from the surface. • Spray in a sweeping motion moving on and off the spraying area. • Apply several thin coats if required, at a minimum of 15 minute intervals.

DRY TIME • Touch dry and recoatable after 15 minutes.
• Low temperature, high humidity or poor ventilation may extend drying and recoat times.

CARE AND MAINTENANCE • Clean surfaces with a detergent solution. • Avoid abrasive cleaners.

* Special precautions should be taken during surface preparation of pre-1960's paint surfaces over wood & metal as they may contain harmful lead.

Tough enamel finish

Quick dry 15 minutes

No primer required

Non yellowing
